Fully Charged: Solid Green

OPERATION GUIDE

All functions of this product can be controlled with one button.

1. Power on/Sunset Mode

Press the power button to turn on the light and enter the sunset mode. In this mode, the light is like the sunset glow.

Sunset

2. Sunrise Mode

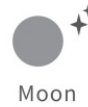

After powering on, press the power button once to enter the sunrise mode. In this mode, the light is like the first light of morning.

Sunrise

3. Moon Mode

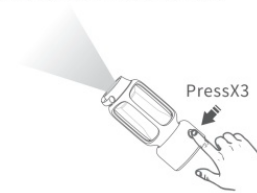

After powering on, press the power button twice to enter the moon mode. In this mode, the light is like the full moon which can illuminate the night.

Moon

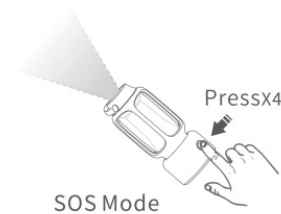

4. Torch Mode

After powering on, press the power button the third time to enter the torch mode. In this mode, you can use this lantern as a torch.

5. SOS Mode

After powering on, press the power button the fourth time to enter the SOS mode. The lantern then flashes for emergency case.

SOS Mode

💡 Tip:

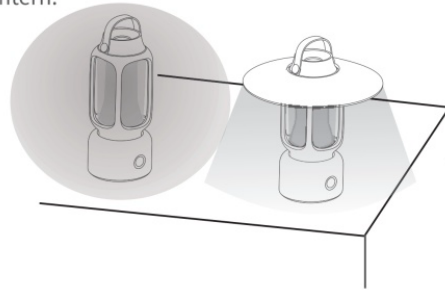

After you set a mode, press the power button again to turn off the light if there is no operation within 10 seconds.

HOW YOUR LANTERN USES

There are 4 options for using this lantern.

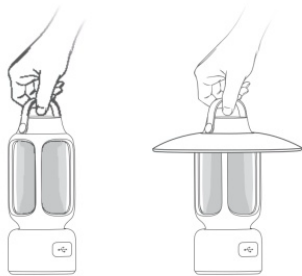

Option 1:

Put the lantern on the desk with or without the shade. The shade makes the light more concentrated. It can sit anywhere!

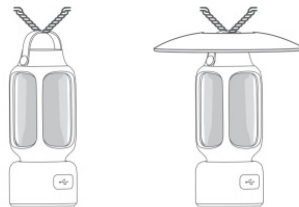

Option 2:

Carry this lantern with or without the shade when you walk outside at night. It can go everywhere!

Option 3:

Hang this lantern up easily by its handle to let it glow from higher up. It can hang everywhere!

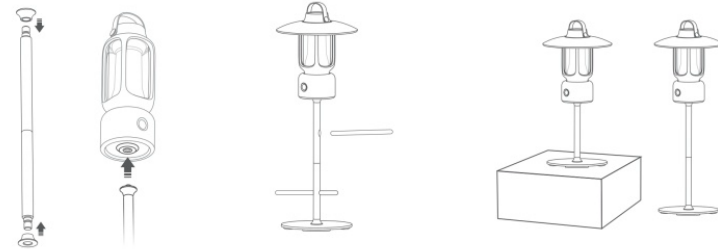

Option 4:

Install the stand accessories to the 1/4" screw hole at the bottom of the lantern. It can stand everywhere!

Step 1: Screw the two screws into both ends of the stick.

Step 2: Screw one side of the stick into the base of stand and another side into the base of the lantern.

Note: To unscrew the stand, you can insert the metal sticks we provided into the two holes on the stand and then twist them in the opposite direction.

OVER DISCHARGE, OVERCURRENT AND SHORT CIRCUIT PROTECTION

When the camping lantern is over discharged, has overcurrent or a short circuit, it will enter the protection mode.

MAINTENANCE AND CARE

- * Do not use any abrasive to clean the transparent cover.
- * Never use the lantern in extremely cold (below -10°C)/hot (above 60°C) environments.
- * The IP rating of this lantern is IPX4. Please do not immerse it in water; otherwise, it may cause a circuit failure.
